## Shrimp Broodstock

Shrimp Grower Feeds

### Product Description

Zeigler Shrimp Broodstock diet is expressly formulated to meet the known dietary needs of shrimp broodstock. Superior quality ingredients are chosen to provide a complement of prime marine proteins and oils, making the diet highly attractive and palatable to the shrimp. It is power-packed with those special ingredients required to aid in female gonad development. Additionally, Zeigler Broodstock contains skillfully selected vitamin and mineral packs known to enhance the health and vitality of broodstock and their spawn.

### Features & Benefits

- ✓ Excellent water stability of the feed
- ✓ Superior quality ingredients
- ✓ Improved female gonad development
- ✓ Dramatically reduced time in Maturation System to initial spawn
- ✓ Stronger, healthier Broodstock
- ✓ Long term nauplii quality benefits

### Product Application

This well-formulated diet is fed to shrimp in a broodstock program at a rate of 3% of shrimp biomass. It is optimum for use in pond and tank; open or closed systems.
