

EZ Larva

Eco-logic Feeds

Premium Liquid Larval Feed

Product Description

EZ Larva Diet is formulated as a completely balanced diet designed to culture shrimp during their larval and post larval stages. EZ Larva microencapsulated particles have soft moist texture and are easy to eat. The ingredients have been selected for their high quality, attractability, digestibility, and freedom from pathogenic shrimp viruses such as WSSV, YHV, and TSV. Manufacturing uses a cold process to preserve sensitive nutrients, pigments, omega-3 fatty acids, enzymes, and other nutrients naturally present.
