

EZ Mate™

Eco-logic Feeds

Premium Shrimp Maturation Feed

Product Description

EZ Mate™ is formulated to partially replace the fresh maturation feeds (such as bloodworms, squid, and shellfish) used for the maturation of broodstock shrimp. EZ Mate™ has been proven to increase the production of consistently high health nauplii in most maturation systems. The diet utilizes high quality, unique ingredients that significantly increase the attractability and palatability of the new innovative maturation feed. EZ Mate™ is formulated with a high concentration of HUFA's, which enhance fertility and mating, at the same time increasing fecundity. Vitamins, minerals and astaxanthin are included in high density to enhance immunity and to ensure high survival of the broodstock. EZ Mate™ is designed for EZ preparation and feeding.

Features & Benefits

- ✓ Improves maturation efficiency stimulating increased numbers of healthy nauplii per spawn
- ✓ Contains extremely high levels of astaxanthin, cholesterol and vitamin C
- ✓ Contains high levels of HUFA's (highly unsaturated fatty acids) to promote maturation.
- ✓ Excellent partial replacement feed to bloodworms, squid, Artemia Biomass, etc.
- ✓ Contains **Vpak™** (Vitality Pak) to enhance disease resistance
- ✓ Formulated to contain no antibiotics

CONTAINS:

Vpak™

Product Application

EZ Mate™...it's as EZ to use as 1-2-3. EZ Mate™ needs no refrigeration, unlike fresh feeds which require freezer storage & added preparation. 1. Simply weigh EZ Mate™; add one part water to one part product (use bottled or other low mineral water). 2. Mix thoroughly until feed is dough-like in appearance & feel. 3. Form feed into "worms". Recommend worm diameter not exceed 5 mm (3/16"). Allow worms to air dry 4 - 12 hours at an ambient temperature of 25 - 40° C. Unused dried worms can be stored in the freezer.

Product Specifications

Packaging: 500 gram (1.10 lb) nitrogen flushed cans and 15 kg (33 lb) buckets
Shelf-life: Two (2) years after manufacture date. Opened product should be used within 3 months
Storage: Store sealed, unopened product in a cool, dry place away from sunlight. Opens product should be refrigerated.
