Flake Larval Feeds

## Product Description

Zeigler Hatchery Flakes provide an economical alternative to our complete line of fine larval and post-larval feed products. They are designed to supplement the use of natural foods and other Zeigler larval diets. Zeigler Brine Shrimp Flakes are made from the best quality natural ingredients including a high level of brine shrimp. Both our Brine Shrimp and our Black Flakes are fortified with complete vitamin and mineral packets and the amino acids required by shrimp larvae to achieve high survival and fast growth.

## Features & Benefits

- ✓ Highly palatable and digestible
- ✓ Contains high quality brine shrimp and squid
- ✓ Contains proteinated trace minerals to improve biological availability
- ✓ Excellent water stability - Does not cloud water
- ✓ Contains extra levels of preservative and antioxidants to extend shelf life
- ✓ Contains **Vpak™** (Vitality Pak) to enhance disease resistance.

## Product Application

These premium diets are designed to nurture Mysis through Post Larval (PL) stages of penaeid shrimp species. These diets yield fast growth by promoting healthy larval molting and high survival.

## Product Specifications

Particle Size:	Flakes
Packaging:	5, 25, & 50 lb. boxes
Shelf-life:	One (1) year from date of manufacture
Storage:	Store in cool, dry place away from sunlight

## Guaranteed Analysis

		Brine Shrimp Flake	Black Flake
Protein	Minimum	50.0 %	50.0%
Fat	Minimum	13.0 %	14.0%
Fiber	Maximum	3.0 %	3.0%
Ash	Maximum	10.0 %	10.0%
Moisture	Maximum	10.0%	10.0%

## Ingredients

A nutritionally balanced highly digestible formulation of marine and animal proteins, plant protein (including algae), yeast, fish and vegetable oils, cholesterol, vegetable starches, vitamin and mineral premixes, anti-oxidants, pigments, and biodegradable binders.
