

Shrimp Maturation

Eco-logic Feeds
Shrimp Maturation Supplement

Product Description

Zeigler maturation supplement is formulated as an integral part of the dietary needs of broodstock. The diet utilizes high quality ingredients such as marine proteins and oils to attract broodstock help to satisfy their nutritional requirements. Shrimp Maturation Supplement is formulated to help eliminate the normal lag time between ablation and initial ovary maturation in female Penaeid shrimp. When the diet is fed to broodstock from approximately 20 grams to harvest, the normal lag time associated with ovarian maturation is virtually eliminated.

Features & Benefits

- ✓ Quicker growth of broodstock
- ✓ Promotes rapid ovary development in maturation systems
- ✓ Larger spawns and increased mating in maturation tanks
- ✓ Rapid growth allows increased generations in genetic breeding program
- ✓ Can be used with automatic feeders to optimize growth and production of broodstock
- ✓ Contains **Vpak™** (Vitality Pak) to enhance disease resistance.

Product Application

Feed directly to broodstock rearing ponds or raceways similar to normal growout feed. Feed ration of 3% biomass per day (dry weight basis) starting at 20 grams to harvest.

Product Specifications

Particle Size: 3/32" (2.4mm)
Packaging: 2-20 lb. nitrogen-preserved plastic bags per box
Shelf-life: One (1) year from date of manufacture
Storage: Sealed Bag: Store in a cool, dry place shaded from sunlight. Refrigerated or frozen storage will extend shelf life. Opened Bag: Use as quickly as possible.

CONTAINS:

Vpak™

Guaranteed Analysis

Protein	Minimum	40.0%
Fat	Minimum	9.0%
Fiber	Maximum	3.5%
Moisture	Maximum	12.0%
Ash	Maximum	10.5%

Ingredients

A nutritionally balanced highly digestible formulation of marine and animal proteins, plant protein (including algae), yeast, fish and vegetable oils, cholesterol, vegetable starches, vitamin and mineral premixes, anti-oxidants, pigments, and biodegradable binders.
