

Finfish Bronze

35% Protein, 5% Fat

Zeigler Finfish Bronze is an economical fishmeal-based diet formulated to feed a variety of omnivorous aquatic animals. This diet provides a highly digestible, low pollution option for many applications including ponds, recirculation systems or flow-through raceways.

Pellet Sizes: 1.5 mm and larger

Pellet Type: Floating

Packaging: bags, super sacks and bulk

Contact a Zeigler representative for specific pellet sizes and packaging information.

Features & Benefits

- Ingredient selection based on true finfish digestibility testing.
- Proper amino acid balance.
- Phosphorus levels below 1.3%.
- Improved flesh quality and texture.
- Meets FDA requirements regarding restrictions on mammalian protein sources.

Product Application & Storage

- Feed should be offered as consumed. Overfeeding will lead to reduced water quality and reduced profits.
- Best if used within six (6) months from date of manufacture (when stored properly).
- Store in a cool, dry area, away from direct sunlight. Rotate stock to use oldest first (first in, first out principle).

Guaranteed Analysis

Crude Protein	Minimum	35%
