

# Finfish Hi-Performance Mini-Pellets

42% Protein, 16% Fat

45% Protein, 16% Fat

**Zeigler Finfish Hi-Performance Mini-Pellets** are marine protein-based diets formulated to feed a variety of omnivorous and piscivorous aquatic animals during the juvenile stage when starter feeds are too small and grow-out feeds are too large. Zeigler Finfish Hi-Performance diets are formulated to allow easy transition from our high protein starter feeds to the 3.0 mm grow-out ration of your choice.

**Pellet Sizes:** 1.5, 2.0, & 2.5 mm

**Pellet Type:** Floating/Slow-Sinking

**Packaging:** bags, super sacks and bulk

Contact a Zeigler representative for specific pellet sizes and packaging information.

## Features & Benefits

- Easily transition fry from starter feeds to grow-out feeds.
- Mini-pellets provide for reduced waste over large crumbles.
- Ingredient selection based on true finfish digestibility testing.
- Balanced amino acid profile.
- Phosphorus levels below 1.3%.
- Meets FDA requirements regarding restrictions on mammalian protein sources.

## Product Application & Storage

- Feed should be offered as consumed. Overfeeding will lead to reduced water quality and reduced profits.
- Best if used within six (6) months from date of manufacture (when stored properly).
- Store in a cool, dry area, away from direct sunlight. Rotate stock to use oldest first (first in, first out principle).

## Guaranteed Analysis

Crude Protein	Minimum	42%	45%
Crude Fat	Minimum	16%	16%
Crude Fiber	Maximum	3%	2%
Moisture	Maximum	12%	12%
Ash	Maximum	6%	8%

## Ingredients

This product contains marine protein and oil products, processed grain and vegetable products, processed poultry by-products, vitamins (including added vitamin E and stable vitamin C), minerals and amino acids.
