

Zeigler® *Specialty Flakes* are nutritionally balanced all-purpose diets for all types of omnivorous Freshwater and Marine Fish species who feed on invertebrates in the wild. These diets utilize highly digestible marine proteins to increase both palatability and digestibility, while minimizing excreted waste. Increased levels of stable Vitamin C and brewers yeast are included in these diets to promote healthy gill, fin and tissue development.

*Beefheart Flake* contains beef hearts that have been shown to improve coloration and improve reproduction.

*Earthworm Flake* contains dried earthworms which have been known to increase growth and breeding in tropical fish.

*Plankton/Krill/Spirulina Flake* contains a blend of Plankton, Krill, and Spirulina which are known to enhance natural coloration in tropical fish

*Egg Yolk Flake* contains dried egg yolk and is perfect for conditioning larval, juvenile, and thin fish also ideal for improving egg production in breeding fish.

*Brine Shrimp Flake* contains high quality brine shrimp that provides optimum growth and health; ideal for picky feeders.

#### Features & Benefits

- Ideal for Broodstock Fish to increase egg production and improve fry production.
- Great supplemental diets for fish who feed on invertebrates in the wild
- Perfect for freshly acquired or stressed fish that may need higher nutrient values
- Contains natural ingredients that improve color in fish such as shrimp meal, spirulina algae, Brine shrimp and krill meal
- Fortified with natural immune enhancers to promote healthy tissue maintenance and development

#### Feeding Instructions

Fish can be fed 3-4 times daily. Feed ad libitum – as much as the fish will consume in three (3) minutes of feeding.

## Specialty Flakes

**Packaging Sizes Available**  
Bulk 5, 25, and 50 lb boxes

#### Storage Instructions

Store in cool, dry place away from sunlight. Maintains nutritive value and shelf life up to one (1) year if properly stored and handled. Frozen storage extends shelf life beyond one (1) year.
